

SUMMARY

Founding PM at BondScanner, building a 0→1 SEBI-regulated online bond investing platform simplifying access to India's traditionally offline bond market through digital onboarding, growth systems, and investor workflows.

Platform & Retention PM at Tap Invest Ultra, leading 25+ feature launches across invoice discounting, acquisition funnels, customer experience, onboarding, wallet systems, and retention journeys.

EXPERIENCE

Associate Product Manager | Tap Invest Mar'25 – Present (15 Mos)

BondScanner SEBI-Regulated Bond Platform (Nov'25 – Present)

ACQUISITION & ACTIVATION

- Built **BondScanner from 0 to 1** as Founding PM, launching onboarding and sign-up journeys across web and mobile within **2 Mos**.
- Developed a **product-led SEO engine** comprising **350+ blogs**, **200+ Bond Dictionary terms**, and **26,000+ programmatic bond pages**, driving **~2x growth** in daily organic clicks within 3 months.

ENGAGEMENT & RETENTION

- Launched and scaled **Bond Bytes** newsletter across **100+ editions**, reaching **20% of total sign-ups** with a **3.5x MoM reach growth** and **7% PN-to-conversion rate** towards KYC and payment completions.
- Launched **Bonds Wrapped**, a Spotify-inspired web campaign; optimized onboarding funnels and performance marketing journeys, contributing to **~20% reduction in CAC**.

PRODUCT INFRASTRUCTURE & SCALE

- Led **third-party data partnership** end-to-end with Derivium, integrating vendor APIs into the backend as a data layer for the deal creation flow, automating **80% of fields** and eliminating manual ops entry.
- Revamped the **Deal Detail page** with datasets no other retail bond platform surfaces, including secondary market activity, covenants, and security data, so users can evaluate bonds at institutional depth before investing.
- Built and operationalized **customer support workflows** using Freshdesk integrations, SLA systems, and ticket automations, reducing manual support effort by **40%**.
- Built an **AI-powered call analysis pipeline** using Sarvam STT and Claude to automate RM call evaluations and action-item generation, improving team quality scores by **~15%** within 30 days.

Ultra Alternative Investment App (Mar'25 – Oct'25)

ACQUISITION & ACTIVATION

- Led **GIFT City NRI FD** initiative from market sizing to live pilot, evaluating **13 banking partners** and onboarding **5 pilot accounts** before strategic pause due to regulatory and business prioritization shifts.
- Redesigned referral flow within onboarding journey, driving **40% referral adoption** and **20% acquisition growth** over 3 months.

REVENUE & MONETIZATION

- Launched **Flexi Invoice Discounting**, a variable-tenure product enabling early liquidity for investors, contributing **~₹50Cr additional AUM** within 3 months.

PRODUCT INFRASTRUCTURE & SCALE

- Shipped **Strapi CMS** infrastructure to streamline campaign operations, enabling independent publishing workflows and reducing turnaround time by **~30%**.
- Shipped the **Ultra web app** across investment, wallet, dashboard, and KYC modules, driving **15-20% True AUM growth** and **30% new user acquisition** in Q3 2025 through web-led campaigns.

Product Intern | MoveInSync Jun'24 – Feb'25 (9 Mos)

- Developed **pricing strategies** for Safety Toolkit and DMS-ADAS premium features, presented at Chennai Prodcon Summit driving upselling conversations with **50+ commute clients**.
- Expanded cross-sell penetration to **50 commute clients** by delivering an ETS dashboard for transport teams, driving a targeted **15% revenue increase**.

Chief Coordinator | Department of Backstage and Infrastructure Management May'22 – Jun'23 (13 Mos)

- Oversaw production, infrastructure, and technical support for two national-level festivals with **30,000+ attendees**, leading a **54-member team**.
- **WAVES 2022** united 6,000+ students nationwide with a budget of **~₹1.25 Crore**, up **25%** from the previous offline edition.

AI SYSTEMS & AUTOMATIONS

- Developed **5 internal AI tools** using Claude API across deal QC, compliance validation, and operational workflows for Ops, Sales, and Marketing teams.
- Built **MoEngage MCP workflows** and reporting systems for product-led marketing and lifecycle execution.
- Designed an **AI-powered content compliance system** with automated review workflows, governing all content published across the BondScanner platform.
