SUMMARY

Product manager who builds regulated fintech products from 0 to 1. Founding PM at BondScanner, a SEBI-registered bond platform opening up India's bond market for retail investors, and before that platform and retention PM on Tap Invest's ultra app with 25+ feature launches across onboarding, wallet, referral and retention.

EXPERIENCE

Tap Invest
Mar 2025 – Oct 2026 (18 months)

Associate Product Manager

BondScanner · SEBI-registered online bond platform — Nov 2025 – Oct 2026 (12 months)

- Built BondScanner 0 to 1 as founding PM, launching awareness and acquisition journeys on web and mobile in 2 months.
- Owned SEO as a product surface, shipping a Strapi blog revamp, a site-wide SEO SOP and an internal linking graph that lifted link health 50–60% in 2 months, helping drive ~2x daily organic clicks.
- Launched and grew the Bond Bytes newsletter to 200+ editions. It reached 20% of all sign-ups, grew reach 3.5x month on month and converted 7% of push notifications into KYC and payment completions.
- Shipped Watchlist, the first native bond-tracking tool among Indian bond platforms. About 5,000 users adopted it in the first two weeks, adding bonds at a 3:1 ratio to removals.
- Led a third-party bond data partnership from vendor evaluation to API integration, automating 80% of 35+ deal creation fields and removing manual ops entry.
- Revamped the Deal Detail page with secondary market activity, covenants and security data that no other retail bond platform shows, so investors can judge a bond at institutional depth.
- Set up support workflows on Freshdesk with SLAs and ticket automations, cutting manual support effort by 40%.
- Built an AI call analysis pipeline with Sarvam STT and Claude that scores RM calls and writes action items, lifting team quality scores by about 15% in 30 days.

ultra · Alternative investment app — Mar 2025 – Oct 2025 (6 months)

- Built a GIFT City NRI FD MVP under IFSCA rules, closing 3 bank partnerships and onboarding 5 pilot accounts.
- Launched Flexi Invoice Discounting, a variable-tenure product for early liquidity, adding ~₹50 Cr AUM in 3 months.
- Redesigned the referral flow in onboarding, reaching 40% referral adoption and 20% acquisition growth in 3 months.
- Expanded ultra from mobile to web (invest, wallet, KYC), driving 15–20% True AUM growth and 30% of Q3 sign-ups.
- Shipped Strapi CMS so the marketing team could publish on their own, cutting turnaround time by about 30%.

MoveInSync
Jun 2024 – Feb 2025 (9 months)

Product Intern

- Worked across PMs, marketing and customer success, turning client-built features into upsells and cross-sells.
- Built pricing for Safety Toolkit and DMS-ADAS premium features, pitched to 50+ clients at Chennai Prodcon Summit.

Department of Backstage and Infrastructure Mgmt.
May 2022 – Jun 2023 (13 months)

Chief Coordinator

- Led production, infrastructure and tech support for two national fests, managing 50+ members and 30k+ attendees.
- Delivered WAVES'22 for 6,000+ students nationwide on a ~₹1.25 Cr budget, 25% higher than the previous offline fest.

AI PROJECTS

- Built 5 Claude-powered tools for ops, sales and marketing, including a deal QC tool that checked ~60 deals in 15 days.
- Built internal funnel dashboards on MoEngage MCP and user data, going deeper than MoEngage's built-in analytics.
- Built an AI compliance agent that checks every blog draft against NSE and SEBI rules before it reaches human review.
